

Winner diploma

The Annual Exhibition of Thesis' Projects

The School of Architecture, Design and Planning is proud to bestow
the award for **the most original poster** to

Jørgen Hugo Jensen

The committee chose this poster with the following argument: It is a poster that shows originality in the way the research is communicated. It is a poster which dares to experiment with the poster format - and some will argue that it is almost a piece of art! With the minimalistic expression, it draws the attention of the reader as the reader is curious to understand the storyline.
